

TORISHIMA

Expertise in Pumping Technology

TORISHIMA was founded in 1919 in Osaka, Japan.

Since then, we have developed into a leading pump manufacturer supplying centrifugal pumps to a wide range of applications.

TORISHIMA is an engineered pump company committed to providing innovative and reliable pumping solutions to a number of key markets worldwide.

TORISHIMA's main markets are:

- Power Generation
- Water Transmission
- Industrial Plants
- Desalination
- Wastewater Projects
- Renewable Energy

Our equipment is designed, manufactured and tested in Japan where our attention to detail, and quality control, ensures TORISHIMA supplies a quality product.

We will continue to develop and improve our products and services to meet the demands of our customers.

Since 1919 **TORISHIMA Pumps have been developed, modified to the customer's needs**

1920 1930 1940 1950 1960 1970 1980 1990 2000 2010

- Single-stage, single-suction turbine pump
- VM type boiler feed water pump
- Pumping station for a Chemical complex in Kuwait
- Vertical mixed-flow volute casing sewage pump in Hong Kong
- High pressure seawater supply pump for RO desalination in Australia
- CSX type single-suction volute pump
- Pumping equipment for drainage station
- Circulating water pump for industrial complex in Saudi Arabia
- High pressure seawater supply pump for RO desalination in Australia

Business Domains >>>

High-Tech Pumps

• **Pump**
High-value-added pump available for various needs. Power generation plant, Desalination plant, Petro-chemical Plant, etc.

Renewable Energy & Environment

• **Wind power generation**
• **Mini & Micro hydro generation**
• **Bio gas & mass co-generation**
• **Resource recycle**

Projects

• **Supply EPC for Turnkey Pumping Stations**
Full turnkey construction for tap water / Drainage, Irrigative facility etc.

Service Solutions

• **Operation & Maintenance**
• **Solution provider**
Construction & repair facilities, Service, Maintenance, REDU (Re Engineering and Design Up) Total plant maintenance solutions

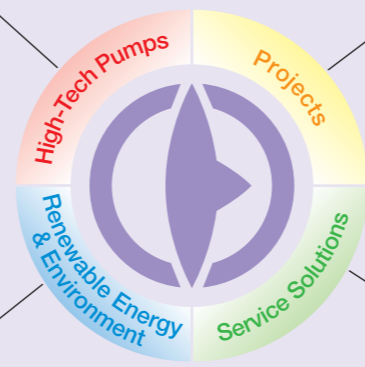

Projects

EPC for Turnkey Pumping Stations

TORISHIMA is not only a pump supplier, we also have the expertise to provide EPC activities for Turnkey pumping stations for Water Transmission, Drainage, Wastewater Plants, Irrigation and Power Plant Cooling Water System.

Major Contracts in the world

- Hong Kong**
- 1993 Muk Wu 'C' Pumping Station/ Water Supply Department
- 1997 Sewage Treatment Plant/ Drainage Service Department
- Vietnam**
- 2007 Ca Mau Power Plant (Balance of Plant)/ Vietnam Oil and Gas Corporation
- 2010 Nhon Trach Power Plant (Balance of Plant)/ Vietnam Oil and Gas Corporation
- Kuwait**
- 2007 Shuaiba Industrial Complex/ Public Authority for Industry
- Qatar**
- 2007 Irrigation (Tes-1 and Tes-2 Pumping Station)/ Public Works Authority
- U.A.E.**
- 2004 Water Works (Shuweiha Water Transmission Scheme)/ Abu Dhabi Water and Electricity Authority
- 2011 Al Ain Distribution Network/ Abu Dhabi Transmission & Despatch Company

High-Tech Pumps

Seawater Desalination

TORISHIMA has over 30 years experience supplying engineered pumping equipment for desalination. Our pumps are installed throughout The Middle East, North Africa, South East Asia and Australia. Our products are designed for all methods of desalination including MSF, RO and MED.

Applications

- Seawater Intake Pumps
- Brine Recirculation Pumps
- Brine Blowdown Pumps
- Distillate Extraction Pumps
- High Pressure RO Pumps
- Booster Pumps
- Process Pumps

Power Industry

TORISHIMA has the capacity to supply a wide range of pumps required in the power industry. Our pumps are installed in variety of plants from small combined cycle to large super critical thermal stations.

Applications

- **Boiler Feed Pumps (BFP)**
- **Boiler Circulation Pumps (BCP)**
- **Cooling Water Pumps (CWP)**
- **Condensate Pumps (CP)**
- **Auxiliary Duties**

Service Solutions

In addition to our vast experience in pump technology, TORISHIMA provides after sales service for rotating equipment. Our innovative solutions can enhance performance and increase the life span of pumps and other equipment. This allows operators to maximize efficiency, reduce maintenance costs, and conserve energy.

Service Include

- **Operation & Maintenance**
- **Pump Overhaul & Repair**
- **Spare Parts**
- **Pump Inspection & Testing**
- **REDU (Re Engineering & Design Up)**

REDU (Re Engineering and Design Up) is a registration of trademark of TORISHIMA

Renewable Energy and Environment

In order to decrease CO₂ emissions, we are actively promoting the further utilization of re-usable, clean energy such as wind power and small hydroelectric generation. In addition, TORISHIMA provides wastewater transport and treatment as well as recycling systems for reclaiming resources from various waste materials and contaminated soil.
